

Promotion

Welcome to the world of MyKit™

The My Kit range is produced to the highest standards from raw material through to finished product.

All first aid products are manufactured and packed in full compliance with CE regulations within our own factory. We comply with the ISO 13485:2003 standard for quality management of medical devices and cosmetic products. Production and testing are carried out in the EU in accordance with good manufacturing practice and is regularly checked by the relevant authorities. Promotional labelling means that we can give our customers the complete brand fulfilment from strategy, design, logo, timing and logistics.

EVA bags

EVA Bags are made from environmental friendly materials - its like a hard box, but textile covered. EVA bag carries a standard content, however it is possible to change the content and build up a EVA bag that fits to your specific needs.

All EVA Bags can be printed by means of Heat Transfer images. This method allows excellent colour reproduction of your logo or design, including small detail and graduated tints of colour.

Weight: 930 gr, size: 200 x 250 x 80 mm
